Education

- 2019–2023 **Czech Technical University in Prague, Faculty of Electrical Engineering**
Bachelor's degree in electrical engineering
Study program: Open Electronic Systems
Thesis: Scattering of an Electromagnetic Wave on a Two-Dimensionally Periodic Structure
- 2023–2026 **Czech Technical University in Prague, Faculty of Mechanical Engineering**
Master's degree in aerospace engineering
Study program: Aerospace Engineering
Thesis: Design of a Cooling System for a Formula Student Traction Accumulator
- 2025–2026 **Delft University of Technology**
ERASMUS+ (1 semester)
Aircraft avionics and operations, Advanced heat transfer, Non-linear dynamics, Design of Lightweight Structures, Multiphysics simulations

Experience

Formula Student

- 2019–2023 **eForce Prague Formula, Electrical engineer**
PCB hardware design and testing, Wiring harness manufacture
- Development of a custom SiC-based motor controller
Successful development of Czechia's first self-driving Formula Student car
(2022–2023) Driver
(2023) Head of the team's LV electronics department
- 2023–2025 **eForce Prague Formula, Mechanical engineer**
Mechanical structures design and integration into the car, Manufacture of composite structures, CFD of the battery thermal management, FEA
- Development of a custom high voltage traction accumulator
Design and simulation of an air cooling system for the battery cells
(2025) Representation of the team at EXPO 2025 in Osaka, Japan

Languages

- Czech Native language
English CEFR C2
German CEFR B1

Skill matrix

Level	Skill	Years	Comment
■■■■■	Altium Designer	5	PCB design for the Formula Student Project
■■■■■	ANSYS Fluent	3	Steady-state and transient CFD for external aerodynamics and thermal management of batteries
■■■■■	ANSYS Mechanical	2	Simple static and modal analyses of metal structures
■■■■■	ANSYS Spaceclaim	2	Geometry preparation for CFD and FEA
■■■■■	COMSOL Multiphysics	1	Small-scale multiphysics simulations
■■■■■	Dassault 3DEXperience	3	Part and assembly design
■■■■■	Dassault Catia V5	1	Part and assembly design
■■■■■	Autodesk Fusion 360	2	Part and assembly design, simple FEA
■■■■■	MATLAB	6	Focus on mathematical models of real-world systems, numerical methods and race data analysis
■■■■■	L ^A T _E X	6	Daily use for reports
■■■■■	C	1	Basic knowledge

Interests

Work	Aircraft design, CFD, Batteries, Thermal management, Mechanical design	Personal	Motorsport, Aviation, Gardening, Judo
